**CRU Sleep Core Services  
2017-2018**

Sleep studies (polysomnograms) in the CRU and ambulatory (home) sleep studies are available for ICTS sleep and circadian researchers. Investigators should contact Yo-El Ju MD ([juy@wustl.edu](mailto:juy@wustl.edu)) to discuss specific needs during study design.

- 1. Polysomnogram, overnight, attended in CRU** **\$525**  
Compumedics Grael system with optional video/audio recording
- 2. Polysomnogram, overnight, unattended in CRU** **\$185**  
Compumedics Grael system with optional video/audio recording
- 3. Home sleep apnea screening test** **\$85**  
Philips Respironics Night One or Alice PDX
- 4. Home sleep test with additional channels** **\$185**  
Philips Respironics Alice PDX
- 5. Actigraphy** **\$85\***  
\*\$18 if study team provides own actigraphs and does own setups/downloads
- 6. Sleep study scoring by a registered polysomnographic technologist**
  - a. home sleep apnea screening study - \$40
  - b. polysomnogram overnight - \$70
  - c. other polysomnogram/sleep study staging - \$12 for first hour then \$8 per hour of recording

Services include all necessary equipment, sensors, disposables, and scoring by a registered polysomnographic technologist. Admissions to the CRU must be scheduled concurrently. Services do *not* include clinical services such as physician over-read of studies, clinical interpretation, reports in the clinical medical record, or communication of results to participants. Data will be returned electronically or on CD/DVD, and will not be archived past 30 days.
